Fig. S14. Mapping of reproductive mode. Oviparity A: ootheca dropped well before hatch. Oviparity B: ootheca carried externally until hatch. Ovoviviparity A: ootheca carried internally until hatch. Ovoviviparity B: no ootheca, eggs carried internally until hatch. Viviparity: eggs/ootheca carried internally until hatch, eggs receive significant amounts of nutrients from the mother during gestation. See Table S5 for information on reproductive modes. The tree is based on the ML-T-P (Fig. 3) and ML-C-P (Fig. S4) trees, see section 2.5. for details.
