Titles of talks preliminary, and not all authors of talks listed

| | |
|---|--|
| Andreas Zwick | Phylogeny of Pancrustacea |
| Christine Mißbach | Evolution of chemosensitivity in Crustacea and Hexapoda |
| Peter Mayhew | Diversification inferences from family level phylogenies |
| Stephen Cameron | Recent advances in Insect Mitochondrial Genomics - Intraordinal Phylogenomics and Genome Rearrangement Phylogenies |
| Alexander Blanke | The Palaeoptera problem: evidence from functional morphology |
| Olivier Béthoux | Selected cases of fossil insects enlightened by Reflectance Transforming Imaging |
| Yingying Cui et al. | The age and ancient biogeography of stoneflies |
| Harald Letsch et al. | The phylogeny and evolution of stoneflies: promises and limitations of transcriptomic and traditional data |
| Hojun Song | Phylogeny of Orthoptera |
| Gavin Svenson et al. | Phylogeny of Mantodea |
| Dominic Evangelista et al. | Phylogeny of Blattodea |
| Jessica Ware | Phylogeny of Isoptera |
| Beny Wipfler et al. | Phylogeny of Dermaptera |
| Kevin Johnson et al. | Phylogenomics of the hemipteroid insect orders |
| Christiane Weirauch | Phylogeny of Heteroptera |
| Ralph Peters & Lars Krogmann | Phylogeny of Hymenoptera |
| Phil Barden & Jessica Ware | Paleontological contributions in the age of genomics: relicts, stem lineages, and extinction in ants |
| Duane McKenna et al. | Phylogeny and evolution of Coleoptera |
| Gael Kergoat | Phylogeny of Tenebrionidae |
| Dirk Ahrens et al. | Phylogeny and evolution of Scarabaeoidea |
| Hans Pohl & Rolf Beutel | Phylogeny and evolutionary phenomena of Strepsiptera |
| Ulrike Aspöck et al. | Phylogeny of Neuropterida |
| Frank Friedrich | Morphology and phylogeny of Trichoptera |
| Akito Kawahara | Phylogeny of Lepidoptera: Progress and update |
| Niklas Wahlberg | The priors and posteriors of fossil calibrations: an example from butterflies |
| 1kite Antliophora group | In the twilight of Antliophora - the intractable Mecoptera-problem |
| Brian Wiegmann | Phylogeny of Diptera |
| Rudolf Meier | Species detection project Singapore |
