Species limits in Northern Eurasian taxa of the common stonechats, *Saxicola torquatus* complex (Aves: Passeriformes, Muscicapidae)

ALEXEY OPAEV, YAROSLAV RED'KIN, EGOR KALININ & MARIA GOLOVINA

Supplementary Fig. S1. Example of song strophe of *S. stejnegeri* showing the two types of syllables: ‘simple’ syllables (blue) and trills (red) (x-axis = time in seconds; y-axis = frequency in kHz) (a), and histogram of inter-element pauses in two *S. maurus* males ($n=199$ elements, x-axis = time in milliseconds, %; y-axis = frequency, %) (b).
