

basalt 2013

Cenozoic Magmatism of Central Europe

Program overview of the conference 23th to 28th April 2013

Tuesday 23th April 2013

Workshop 1	Microtextures of volcanic rocks	Freiberg	9:00-17:00
	Physical geology and textures of SiO ₂ -poor volcanic and subvolcanic rocks by Christoph Breitzkreuz Freiberg, Germany		
Workshop 2	From the rock to the date	Dresden	9:00-17:00
	From the rock to the date - The U/Pb La-ICP-MS method by Ulf Linnemann Dresden, Germany		
Plenary Talk 1	Vulkanismus und Wirbeltiertaphonomie	Senckenberg Museum of Natural History	15:00
	Lecture held in German language by Michael Wuttke Mainz, Germany		
Plenary Talk 2	Der Vesuv – ein gefährlicher Nachbar!	Senckenberg Museum of Natural History	19:30
	Lecture held in German language by Peter Suhr Freiberg, Germany		

Wednesday 24th April 2013

Pre-conference trip	Osecna and the Ploučnice area (CZ)	Görlitz/Stráž	7:30-18:00
	Upper Cretaceous/Paleogene ultramafic volcanism in the Osečná and the Ploučnice area (North Bohemia) Guided by: Antonin Paluska, Jaromír Ulrych, Pavel Veselý, Ferry Fediuk		
Ice Breaker		Görlitz conference centre	21:00

Thursday 25th April 2013

Oral presentations		Görlitz conference centre	9:00-18:00
Session 2a	Tectonic & age control on magmatism		
Session 2b	Documents of magma ascent, storage and melt evolution: fluids, seismology, phenocrysts, petrology		
Session 4	K.H. Scheumann and the ultramafic rocks		
Poster presentation of all Sessions (1 – 2 hours)			18:30

Friday 26th April 2013

Oral presentations		Görlitz conference centre	9:00-17:00
Session 1	The Upper mantle beneath Central Europe - physical, mineralogical and chemical characteristics		
Conference Photo		Görlitz conference centre	12:30
Sightseeing: guided tour through the Görlitz Old Town			18:00-19:00
Conference Dinner – including guided tour through the exhibition		Senckenberg Museum of Natural History	19:00

Saturday 27th April 2013

Oral presentations		Görlitz conference centre	9:00-17:00
Session 3a	Volcanism & landscape evolution		
Session 3b	Volcanology & Geophysics		
Session 3c	Volcanism and society - geotourism, hazards, resources		
Poster presentation of all Sessions (1 – 2 hours)			17:30
Final statements and price awards		Görlitz conference centre	19:00

Sunday 28th April 2013

Post-conference trip 2	Księginki quarry in Lubań (PL)	Zgorzelec/Luban	8:30-13:00
	Księginki quarry in Lubań – nephelinite with two suites of mantle xenoliths Guided by: Jacek Puziewicz		
Post-conference trip 3	Lusatian Volcanic Field (D)	Görlitz	8:30-18:00
	Volcanology of the Lusatian Volcanic Field – New insights in old well-known Guided by: Olaf Tietz, Jörg Büchner, Peter Suhr
