

## Colour images of all plus one investigated *Mantella* species by species group

Electr. Suppl. 4, part 1. – to:

Schaefer, H.-C., Vences, M. & Veith, M. (2002):  
Molecular phylogeny of Malagasy poison frogs, genus *Mantella* (Anura: Mantellidae):  
homoplastic evolution of colour pattern in aposematic amphibians.  
Org. Divers. Evol. 2(2): 109-117.

All pictures by M. Vences

### A. *Mantella cowani* group

*Mantella cowani*

*Mantella haraldmeieri*

*Mantella nigricans*

*Mantella baroni*

**B. *Mantella madagascariensis* group**

*Mantella madagascariensis*

*Mantella aurantiaca*

*Mantella crocea*

*Mantella milotympanum*

*Mantella pulchra*

**C. *Mantella bernhardi* group**

*Mantella bernhardi*

**E. *Mantella laevigata* group**

*Mantella laevigata*

**D. *Mantella betsileo* group**

*Mantella betsileo*

*Mantella viridis*

*Mantella expectata*

*Mantella manery*
