Bibliographia Mesostigmatologica

Zusammengestellt von Axel Christian und Kerstin Franke

In den ABHANDLUNGEN UND BERICHTEN DES NATURKUNDEMUSEUMS GÖRLITZ werden jährlich die neusten Arbeiten über mesostigmatische Milben publiziert, soweit uns diese bekannt wurden. Bitte helfen Sie bei der weiteren Vervollständigung der Literaturdatenbank durch unaufgeforderte Zusendung von Sonderdrucken bzw. Kopien. Wenn beides nicht möglich ist, bitten wir um Mitteilung der vollständigen Literaturzitate zur Aufnahme in die Datei.

Stellen Sie fest, daß in der Bibliographie Titel Ihrer Publikationen oder anderer Autoren fehlen, wären wir Ihnen für eine Information dankbar.

Zur Deckung der Druck- und Versandkosten wird eine Kostenbeteiligung von 5,- DM pro Heft erbeten. Bitte schicken Sie Banknoten / Euroschecks in einem Brief oder richten Sie die Zahlung an: Niederschlesische Sparkasse, BLZ 850 501 00, Konto Nr. 6165. Bitte geben Sie bei Verwendungszweck „Bibliographia Mesostigmatologica“ an.

Die Literaturdatenbank umfaßt gegenwärtig ca. 8100 Literaturstellen mit taxonomischen und ökologischen Stichwörtern. Auf Wunsch führen wir Recherchen nach vorgegebenen Stichwörtern durch und übersenden Auszüge aus der Literaturliste.

In ABHANDLUNGEN UND BERICHTE DES NATURKUNDEMUSEUMS GÖRLITZ latest works on mesostigmatic mites are published every year in so far as they have come to our knowledge. Please help to keep the literature data bank as complete as possible. Please send us reprints or copies of all your papers on mesostigmatic mites, or, if this is not possible, complete references so that we can include them in the list.

Please send an information to us, if we have not listed all your publications in the Bibliographia Mesostigmatologica.

A fee of 5,- Deutsche Mark per number is requested to cover the printing and mailing costs. Preferably send bank notes in convertible currencies / eurocheques in a letter or the payment is to be send (to) Niederschlesische Sparkasse, BLZ 850 501 00, account number 6165. Please write at purpose „Bibliographia Mesostigmatologica“.

The literatur data bank with taxonomical and ecological keywords contains already 8100 papers on mesostigmatic mites. Every scientist who send keywords for investigations can receive a literatur list.
