## BIBLIOGRAPHIA ORIBATOLOGICA

Zusammengestellt von HANS-DIETER ENGELMANN und THOMAS SCHWALBE

In den ABHANDLUNGEN UND BERICHTEN DES NATURKUNDEMUSEUMS GÖRLITZ werden jährlich die neuesten Oribatidenarbeiten veröffentlicht, soweit uns diese bekannt wurden. Alle Autoren, die ihre Arbeiten zur Titelaufnahme an uns senden, bekommen die Bibliographie zugeschickt.

In ABHANDLUNGEN UND BERICHTE DES NATURKUNDEMUSEUMS GÖRLITZ latest works on Oribatei are published every year in so far as they have come to our knowledge. All the authors mailing their papers to us for admission of the title will get a copy of this bibliography.

Par les ABHANDLUNGEN UND BERICHTE DES NATURKUNDEMUSEUMS GÖRLITZ sont publiées chaque année les articles le plus récents se référant au travail concernant les Oribatei, tant que nous en avons connaissance. Les auteurs qui nous adressent leur publication pour l'admission du titre, recevront un exemplaire de la bibliographie.

В разработках и докладах музея природоведения Герлиц (ABHANDLUNGEN UND BERICHTE DES NATURKUNDEMUSEUMS GÖRLITZ) ежегодно опубликовываются, насколько они нам известны, новейшие орибатидные работы. Авторы, направляющие нам свои работы для регистрации титула получают обратно библиографию.

Russische Titel: Die Autorennamen russischer Titel wurden nach der in der Bibliographia Oribatologica Nr.6 veröffentlichten Tabelle transliteriert. Auf eine Transkription wurde auch dann verzichtet, wenn sich dadurch eine andere Schreibweise des Namens als die durch den Autor selbst vorgenommene ergab. Die Einordnung der transliterierten Namen erfolgte nach dem deutschen Alphabet, wobei sich teilweise eine andere Reihenfolge ergab, als es nach einer Transkription der Fall gewesen wäre.

Die Titel russischer Arbeiten wurden ins Englische übersetzt. In den Fällen, in denen der Autor selbst eine anderssprachige Übersetzung des Titels angegeben hat, wurde diese benutzt.

Die Namen russischer Zeitschriften wurden nach der oben genannten Tabelle transliteriert. Um Zweifel auszuschließen, ist der russische Originaltitel angefügt.

Nomina nova: In diesem Kapitel werden alle neuen Namen genannt, die uns bekannt wurden. Eine Prüfung auf die Gültigkeit der Namen konnte hier nicht vorgenommen werden.

Den Nomina nova folgt in Klammern die Nummer des entsprechenden Titels in unserer Kartei (siehe: "Publikationen") mit der Seitenangabe des Beginns der Neubeschreibung.

Mit einem \* hinter dem Autorennamen versehene Titel lagen uns nur als Referat vor.

Stellen Sie fest, daß in der Bibliographie Titel Ihrer Publikationen oder die anderer Autoren fehlen, wären wir Ihnen für diese Information dankbar.

Besteht das Interesse, die Bibliographie in Diskettenform zugesandt zu bekommen, bitte eine Diskette der Post beilegen.

If you are interested in receiving the bibliography on a disk, please put one to your mail.
